Other Utilities for Resale Rate (Continued)		Rate Code
(Rate Title or Number)	80	
<p>POWER FACTOR:</p> <p>The Customer agrees to maintain unity power factor as nearly as practicable. Demand charges will be adjusted for consumers with 50 kW or more of measured demand to correct for average power factors lower than 95% and may be so adjusted for consumers if and when the Association deems necessary. Increasing the measured demand by one percent (1%) for each one percent (1%) will make such adjustment by which the average power factor is less than 95% lagging.</p> <p>MONTHLY The minimum monthly bill shall be the greater of the following.</p> <p>(1) The Customer Charge.</p> <p>(2) The amount stated in the Agreement For Electric Service.</p> <p>AGREEMENT:</p> <p>An agreement for electric service with a fixed term may be required by the Association. This rate schedule may be changed by order or consent of regulatory authorities having jurisdiction, or if none, by the Association's Board of Directors. Service hereunder is subject to the Association's tariffs and rules and regulations for electric service.</p> <p>TERMS OF PAYMENT:</p> <p>In the event the current monthly bill is not paid within fifteen (15) days from the date mailed, it will be delinquent. Bills that remain delinquent at the start of the next billing cycle, that is, on the 10th of the following month, will be assessed an interest charge of 1% of the amount unpaid at that time and will also be subject to disconnection for non-payment. However, disconnection for non-payment shall not relieve the customer of responsibility for payment of the bill and additional interest penalties which shall be added on the unpaid balance the 10th of each month at the rate of 1% per month.</p>		<p>RATE</p> <p>(C)</p>
